

Interface converter RS485 to RS232

Characteristics

- n Interface converter RS485/422 to RS232
- n To connect the power factor controller BR6000 or other devices with interface RS485/422 to a PC with RS232 interface
- n Connection of several devices at RS485 possible
- n Compact design

Technische Daten

Dimensions	42 x 22 x 80 mm (W x D x H)
Weight	approx. 0.1 kg
Power supply	via RS232; in case of a large cable length a termination resistor is recommend – in this case an aux. supply of 5VDC is needed.
Power consumption	approx. 50mA
Connection	RS485: 5-pole terminal with mating plug TxD, RxD, Gnd RS232: 9-pole DSUB – terminal for direct connection to a PC (cable length max. 10mtr.)
Baudrate	50 bps ... 115,2 kbps
Accessories including delivery	cable for external power supply (USBa 5VDC)
Ambient temperature	-10 ... +50°C
Storage temperature	-20 ... +75°C
