

USB to 485 converter CV-USB485

Characteristics

- Interface converter USB – RS485
- To connect the power factor controller BR6000 or other devices with interface RS485 to a PC with USB-interface
- Connection of several devices at RS485 possible
- Compact form in plastic casing
- USB cable 1m length included in delivery

Technical data

Dimensions	66 x 66 x 28 mm (W x D x H)
Weight	approx. 0.1 kg
Power supply	via USB-connection of the PC
Power consumption	auxiliary power approx. 40mA, depending on number of connected devices and cable length
Connection	USB-B standard bushing (USB2.0 compatible) RS485 four pole terminal with mating plug for 1:1 connection with BR6000; Signals: A, B, GND
Protection class (IEC 60529)	IP20
Ambient temperature	-10 ... +60°C
Storage temperature	-20 ... +75°C
